

1. ****Location****:

- Sailing from Minerva Reef to New Zealand.
- Encounter with the cyclone near Fiji.

2. ****Sailing Conditions****:

- Engine trouble experienced with the port engine revving at full RPM.
- Using a weather routing tool for navigation.
- Dealing with rough sea conditions and 3m swells.

3. ****Problems & Fixes****:

- Engine issue caused by a broken fuel rack which was addressed by turning it off and seeking help for repair.
- Emergency hatch problem on another boat, leading to water ingress and emergency repairs.
- Lifeline connections issue requiring on-the-go repairs.

4. ****Anchorages & Marinas****:

- Stop at Manua South Reef for exploration and repairs.
- Mention of possible anchorages at different destinations along the route.

5. ****Safety Measures****:

- Urgent departure from Minerva Reef to outrun the cyclone.
- Sailing in tandem with another vessel for safety and support.
- Mention of crew safety checks and maneuvers during rough weather.

6. ****Routes****:

- Traveling towards New Zealand, navigating the South Pacific Ocean.
- Decision-making based on weather forecasts and the cyclone's path.

7. ****Weather & Sea Conditions****:

- Weather changes and challenges faced during the voyage.
- Dealing with low winds, stormy weather, and calmer conditions at various stages.

8. ****Crew & Personal Experiences****:

- Personal reflections on the journey, crew dynamics, and experiences shared on board.
- New activities like Wing foiling and music playing during the voyage.

9. ****Conclusion & Wrap-up****:

- Successful outrunning of the cyclone and nearing New Zealand.
- Appreciation for the journey, crew, and the remote sailing experience.
- Anticipation for arrival in New Zealand while cherishing the moments at sea.
